

ARIKI ADVENTURES

Rarotonga

Passionate about the environment and sustainable tourism, the multi-award winning Ariki Adventures offer an array of Sea Scooter and Snorkeling tours, that allow visitors to safely explore and enjoy the vibrant underwater world and its wildlife in their natural habitats.

All tours begin with most importantly, a safety briefing before you are fitted with a mask, snorkel, fins and a wet suit (if need). Then its on to experiencing stunning turquoise lagoon or deep blue Pacific ocean.

The **Turtle Sea Scooter Safari** is a spectacular way to see and swim with Pacific Green and the endangered Hawksbill turtles. A breath-taking lagoon adventure that can be enjoyed by guests of all ages. Children must be capable swimmers and 7 years or older to use the sea scooters. For younger children who are able to swim and use snorkeling gear, may jump on a kayak with an adult. The **Onu Experience** is the same Turtle tour but with snorkeling gear only and without a sea scooter.

The **Lagoon Discovery Tour** is also done with a sea scooter. This tour takes guests to swim amongst schools of colorful fish, eagle rays, moray eels and vibrant coral. It is also an educational tour where you learn about our fragile coral reefs and what Ariki Adventures are doing to protect it for future generations. A fun adventure for families.

The **Shipwreck Tour**, is an open ocean sea scooter tour that takes you to explore the underwater reef resting place of a 100 year old shipwreck only 5 meters below the surface. Experience the clarity of the deep, hues of electric blue and a marine wonderland where everything is possible. See the "Coral Gardens" just outside the reef where you may swim with turtles, puffer fish, reef sharks and more.

Ariki Adventures also have the option of **Private Tours**, which offer a more personalized experience.
